

I, Ahmed Mohamed Said, declare that I began a partial food strike on the afternoon of 8/12/2015 in an act of objection to my continued detention for dubious reasons in a case fabricated by the investigation police officers at Abdin Police Station. They accused me of demonstrating and obstructing the road at the intersection of Muhammad Farid street with Mohamed Mahmoud street, despite the fact that there were no protests or demonstrations at this time at all, and without any evidence or proofs for these charges except the allegations of the police  
I request my colleagues and comrades to send a telegram about this to the relevant authorities.  
I ask from my family and my friends to understand my reasons and respect my position.
